This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTION.

THE PUTNAM LIBRARY is the gift of Mrs. MARY LOWELL PUTNAM, of Boston, Mass., to the Veterans of the National Home for Disabled Volunteer Soldiers, near Dayton, Ohio, as a memorial of her gallant son, Lieut. WILLIAM LOWELL PUTNAM, of the Twentieth Regiment Massachusetts Volunteers, who fell, mortally wounded, at the battle of Ball's Bluff, Va., and died the following day ; thus offering up his young and beautiful life to maintain the honor and integrity of his country.

There could be no more fitting illustration of the patriotic heroism that characterized the young men of our country at the time when the national flag was fired upon, than that furnished by the young soldier whose honored name this superb Library bears. Though very young, he had spent seven years in Europe, completing his education, and traveling over most of the Continent ; but, at the first sound of war, he hastened home, to place himself in the front ranks of his country's defenders ; and, in less than three months, from the time he enlisted, his name was placed in the bright galaxy of the " Martyrs to Liberty."

And those of us who had the honor to serve in the same glorious cause, and have so fortunately survived to enjoy the blessings he died to purchase, may look upon his face (so finely delineated by the artist,) which adorns the beautiful Hall, where the rich gifts of his loving mother are treasured, and ever revere his memory, and strive to emulate his noble example.

" At the age of eighteen," writes Dr. Guepin, of Nantes, " he returned to us, a " young poet, and serious thinker, under the form of a tall, handsome youth, as " modest and reserved in society, as firm and courageous in the practice of his duties. " His dream for the future had not changed—it was still that of serving the inter- " ests of his country and humanity, as a historian."

In addition to the fine collection of Standard and Illustrated Books in the Library, Mrs. PUTNAM has presented about Three Hundred Paintings, Steel Engravings, Chromos, and other Pictures, in appropriate frames, making a most interesting and valuable collection, and furnishing elegant adornment for the walls of the room ; also, a superior Camera for viewing pictures ; all of which she has delivered at the Home free of any expense.

That this munificent gift is duly appreciated by the inmates of the Home is shown by the constant use of the Books—the number of volumes taken out being greater in proportion than that of many larger collections—while the admiration and encomiums of thousands of visitors form a perpetual tribute to the noble donor.

Chaplain and Librarian.
